Be ESG Ready

Guiding you on your journey to Sustainability Reporting

The investment community is making critical commitments to finance sustainable growth from divestment to reinvestment – and a wealth of innovative finance vehicles from sustainability indices and funds to green bonds and lending policies are emerging.

To prepare you for SGX sustainability reporting requirements, Be ESG Ready is a customized report that delivers insights into the Environmental, Social and Governance (ESG) investment trends and demographics of investors in your company as well as your industry to ensure you are best positioned to capitalize from over $21.4 trillion ESG investments in Asia.

What does the Be ESG Ready report offer?

- Maps the sustainability reporting actions and timeline so you are well prepared to meet the reporting deadline
- Enable you to identify material ESG issues in your sector and set indicators to measure your own performance
- Learn from best industry practices through a customized report

What are the most material areas to report on and how does my performance compare to my sector?

Be ESG Ready outlines the sustainability issues driving competitiveness that have a material impact on the financial condition or operating performance of your industry to ensure you report what matters to investors.

We also provide key performance indicators encompassing the environment, labor practices and decent work, human rights and society. The quarterly updates provide in-depth sector key performance indicators review and discussion to help you understand your competitive position – and set targets to manage it.

What are ESG industry leaders doing right?

We’ll outline a series of case studies profiling industry leaders relevant to your sector to showcase the journey of ESG readiness, from compliance through to the best practices in sustainability reporting.

How ESG ready are you?

Be ESG Ready scores your current reporting against the five key criteria of SGX sustainability reporting requirements so you know how you are performing and what you need to do to capitalize on expanding ESG investment streams.

Why Choose Trucost?

Trucost
Trucost wrote the UK Government and Shanghai Stock Exchange environmental reporting guidelines for business and is a trusted advisor to international reporting standards, including Global Reporting Initiative, International Integrated Reporting Council and World Business Council for Sustainable Development.

Trucost assess the environmental reporting and disclosure of companies representing 93% of global markets by market capitalization on behalf of investors with over $20 trillion of assets under management (AUM).

Trucost works with thought leaders to deliver world-class sustainable business insights, including United Nations Environment Programme Finance Initiative, Principals for Responsible Investment, World Wildlife Fund, Cradle to Cradle Institute, Food and Agriculture Organization of the United Nations and Natural Capital Coalition.

About Trucost
Trucost helps companies and investors to achieve success by understanding environmental issues in business terms. Our data-driven insights enable organizations to manage risks and identify opportunities for growth. We are the world’s leading experts in quantifying and valuing the environmental impacts of operations, supply chains, products and financial assets. By putting a monetary value on pollution and resource use, we integrate natural capital into business and investment decisions. With offices in Europe, the US and Asia, Trucost works with businesses worldwide to increase revenues, improve communications, meet marketplace expectations and comply with regulatory requirements.
